

The RC V2: QP: A Transnational Measure of Participation of Persons with Disabilities

Patricia Scott

Health and Rehabilitation Sciences

Participation in Society for persons with Disabilities is a goal of the World Health Organization. The Role Checklist Version 2: Quality of Performance measure involvement in, importance of, and performance level in ten common life roles. Currently in the development stage, this working group from Indianapolis (USA); Oslo, Norway; Zurich, Switzerland; Tokyo, Japan; Edinburgh, Scotland; and Stockholm, Sweden, seek to establish the Role Checklist as a valid transnational measure of participation.
